

Barrel Clamp

Barrel Clamps - Referred to as "Barrel Clamp", this particular hydraulic accessory is actually utilized on lift trucks in order to compress objects that you want to transport using the forklift. Usually, they are used so as to paper rolls, barrels, and handle kegs, along with some barrel clamp designs being able to rotate the load. For instance, the revolving function permits a forklift operator to be able to insert a vertically stored paper into the horizontal intake of a printing press.
