

TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, forklifts play an important role for transporting industrial goods. Originally innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained popularity following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

First established as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Through the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the business. TCM began constructing forklift manufacturing sites outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures numerous models of industrial forklifts with more than 50 years of accumulated expertise and technology, making their products recognized and used all over the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
